FNIH Atlantic

Key Drivers of Our Work

Client = First Nation or Inuit individual, family, or community.

VISION & MISSION

VISION

First Nations and Inuit have a health status comparable to all Canadians.

MISSION

FNIH Atlantic seeks to achieve its vision by taking a population health approach¹ focused on:

- supporting the delivery of, and access to, health programs and services to meet clients'² needs,
- facilitating partnerships to improve the continuum of health programs and services for clients,
- working toward greater control of health programs and services by First Nations and Inuit, and
- promoting evidence-based practises and decision making, and innovation.

1 Population health is an approach to health that aims to improve the health of the entire population and to reduce health inequities among population groups

2 In this document, “client” refers to Atlantic First Nations and Inuit individuals, families, and communities.
